The RS Small Cap Value Composite includes all discretionary accounts invested in the Small Cap Value Strategy. The Strategy invests principally in equity securities of Small Capitalization companies that RS Investments believes are undervalued and may at times invest a portion of its assets in non-US securities. The composite creation date is January 2003 and the composite inception date is July 1995.

The benchmark of the composite is the Russell 2000° Value Index. The Russell 2000° Value Index is an unmanaged market-capitalization weighted index that measures the performance of those companies in the Russell 2000° Index with lower price-to-book ratios and lower forecasted growth values.

Index returns are provided to represent the investment environment during the periods shown. Index performance does not reflect management fees, transaction costs or expenses that would be incurred with an investment. One cannot invest directly in an index. **Past performance does not guarantee future results.** 

Risk Statistics source: Zephyr StyleADVISOR. Characteristics, Top Ten Holdings and Sector Diversification source: FactSet Research Systems, Inc. The top ten holdings and sector diversification are presented to illustrate examples of the portfolio's investments and may not be representative of the portfolio's current or future investments.

Holdings are subject to change and should not be construed as a recommendation to buy or sell individual securities.

Information relating to portfolio holdings is based on the representative account in the composite and may vary for other accounts in the strategy due to asset size, client guidelines and other factors.

The representative account is believed to most closely reflect the current portfolio management style.
