Past performance cannot guarantee future results.

Gross-of-fees returns are presented before management and custodial fees but after all trading expenses. Net-of-fees returns are calculated by deducting 1/12 of the highest tier of the standard fee schedule in effect for the period noted (the model fee). The composite model fee for each period is either the highest tier of the current fee schedule or a higher value, whichever is required to ensure the model composite net-of-fee return is lower than or equity to the composite net-of-fee return calculated using actual fees. Actual fees may vary depending on, among other things,

the applicable fee schedule and portfolio size. The firm's fees are available on request and may be found on Part II of its Form ADV.

Returns greater than one year are annualized. Returns are expressed in U.S. dollars. Composite returns are net of transaction costs and gross of non-reclaimable withholding taxes, if any, and reflect the reinvestment of dividends and other earnings. Please note: High, double-digit returns are highly unusual and cannot be sustained. Investors should be aware that these returns were primarily achieved during favorable market conditions.

Investing involves risk, including loss of principal.

The Sycamore Mid Cap Value Equity Composite includes all accounts, except wrap fee paying accounts, that are primarily invested in middle-cap companies that meet the team's investment criteria. Mid Cap securities are defined as those that fall within the market capitalization range of the broad universe. Product generally has a minimum equity commitment of 90%. The benchmark is the Russell Midcap Value Index. Prior to January 2015, the name of the composite was the Victory Mid Cap Value Equity Composite. The composite creation date is 3Q04.

The Russell Midcap® Value Index is a market-capitalization-weighted index that measures the performance of Russell Midcap® Index companies with relatively lower price-to-book ratios and lower forecasted growth.

Index returns reflect the reinvestment of dividends and capital gains but do not include advisory fees, transaction costs, or other expenses. One cannot invest directly in an index.

Risk Statistics source: Zephyr StyleADVISOR. Characteristics, Top Ten Holdings and Sector Diversification source: FactSet Research Systems, Inc. The top ten holdings and sector diversification are presented to illustrate examples of the portfolio's investments and may not be representative of the portfolio's current or future investments.

Holdings are as of the date shown and are subject to change. Portfolio holdings should not be construed as a recommendation to buy, sell, or hold any security.

Information relating to portfolio holdings is based on the representative account in the composite and may vary for other accounts in the strategy due to asset size, client guidelines and other factors. The representative account is believed to most closely reflect the current portfolio management style.
